Paving and Curb Installation Inspection Checklist

Interactive checklist for paving and curb installation inspection. Tick, comment, and export as PDF/Excel with QR code security.

Project:
Date:
Filled by:

Material Quality Check

1	Verify supplier certifications for all materials used.
2	Check asphalt mix for proper aggregate composition and consistency.
3	Ensure concrete mix has the correct water-cement ratio.

Alignment and Level Check

4	Use a laser level to verify pavement and curb heights are accurate.
5	Ensure all curbs are aligned with street and sidewalk edges.
6	Verify gradient slopes to ensure proper water drainage.

Drainage and Environmental Check

7	Assess the placement and functionality of all drainage systems.
8	Check for signs of water pooling or erosion in the installation area.
9	Verify environmental protection measures are correctly implemented.

Introduction	How to use this checklist
The inspection of paving and curb installation is a crucial step in ensuring the longevity and functionality of sidewalks, driveways, and road systems. This checklist will guide you through a detailed examination of materials, alignment, drainage, and installation quality. Included in this checklist are tasks that cover the preparation and inspection of both new installations and repairs. This interactive checklist allows users to tick off items, add comments, and export the results in PDF or Excel format with a QR code for authenticity. Perfect for contractors, quality assurance teams, and municipal inspectors, this checklist ensures that every aspect of paving and curb installation meets industry standards.	1. Prepare all necessary tools such as laser levels, measuring tapes, and inspection forms. Ensure you have protective gear and access to design plans. 2. Click the "Use this checklist" button to begin the interactive inspection process. 3. Tick each item online as you complete each inspection task. 4. Add comments where necessary for any discrepancies or additional notes. 5. Click Share or Download to save your completed checklist as a PDF or Excel file for record-keeping.
