Fencing Inspection

1	Check for any signs of damage or wear on the fencing material.
2	Ensure all fence panels are securely fastened and stable.
3	Inspect fence posts for alignment and proper anchoring.
4	Check for any gaps or openings that could allow unauthorized access.
5	Ensure that the fencing meets local safety regulations.

Hoardings Inspection

6	Inspect hoardings for structural integrity and stability.
7	Check for any signs of graffiti or vandalism.
8	Ensure hoardings are free from rust and corrosion.
9	Verify that all hoardings are securely anchored to the ground.
10	Ensure there are no sharp edges or protrusions that could cause injury.

Signage Inspection

11	Ensure all signs are clearly visible and legible from a distance.
12	Verify that emergency exit signs are properly marked and illuminated.
13	Check that directional signs are accurate and correctly positioned.
14	Inspect signs for any damage or wear that may affect visibility.
15	Ensure signs comply with local regulations and standards.

Introduction	How to use this checklist
Inspecting site fencing, hoardings, and signage is crucial for ensuring safety, compliance, and effective project management on construction sites. This checklist covers the essential aspects of inspecting these installations, including material integrity, placement accuracy, and visibility. Proper inspection helps prevent unauthorized access, ensures public safety, and maintains a professional appearance. Our interactive checklist allows users to tick items, leave comments, and export completed reports as PDF or Excel, with a unique QR code for validation.	1. Gather necessary tools such as a clipboard, camera, measuring tape, and safety gear. 2. Click the "Use this checklist" or "Start Interactive Checklist" button to launch interactive mode. 3. Tick each item online as you complete it. 4. Add comments on individual items or the entire checklist. 5. Click Share or Download to download your completed checklist as PDF or Excel. 6. Review the final report, sign off digitally, and share with stakeholders. Archive it with QR code authentication for security and traceability.
