

Traffic Management & Pedestrian Safety Inspection

Interactive checklist for inspecting traffic management and pedestrian safety measures, with tick, comment, and export features.

Project:

Date:

Filled by:

Signage Inspection

1	Verify all traffic signs are visible, legible, and correctly positioned.
2	Check that temporary signs are appropriately placed and secured.
3	Inspect reflective materials on signs for adequate visibility in low light.

Barrier Evaluation

4	Ensure barriers are correctly installed and in good condition.
5	Check that barriers are positioned to protect pedestrians from vehicle traffic.
6	Inspect barriers for any signs of damage or wear.

Pedestrian Pathways

7	Verify that pedestrian pathways are clearly marked and unobstructed.
8	Check for adequate lighting along pedestrian routes.
9	Ensure pathways are free of hazards such as debris or uneven surfaces.

Vehicle Access Points

10	Inspect vehicle entry and exit points for clear signage and barriers.
11	Check for proper traffic flow measures to prevent congestion.
12	Ensure that emergency vehicle access is unobstructed and clearly marked.

Safety Equipment and Gear

13	Verify availability and proper use of safety gear for personnel.
14	Check maintenance records for all safety equipment.
15	Ensure first aid kits are accessible and fully stocked.
