Waterproofing Inspection at Parapets & Roof Terminations

Interactive checklist for inspecting waterproofing at parapets and roof terminations. Commentable and exportable as PDF/Excel with QR code security.

Project:
Date:
Filled by:

Membrane Inspection

1	Check the membrane for any visible signs of wear and tear.
2	Ensure that the membrane is fully adhered to the parapet without any gaps.

Sealant Application

3	Inspect sealant joints for continuity and absence of bubbles.
4	Verify that the sealant is applied evenly across all joints.

Flashing Verification

5	Check flashing overlaps for secure sealing.
6	Confirm that flashing is directing water away from the structure.

Material Compatibility

7	Ensure materials used in roof terminations are compatible.
8	Verify that different materials do not react adversely with each other.

Drainage Inspection

9	Check that all drainage points are clear of debris and functional.
10	Ensure that water is directed away from the building effectively.

Surface Integrity

11	Inspect surface for cracks or other signs of deterioration.
12	Assess the overall condition of the waterproofing layer.

Introduction	How to use this checklist
The inspection of waterproofing at parapets and roof terminations is a crucial task to ensure the integrity and longevity of building structures. This involves examining the materials and techniques used to prevent water ingress, particularly at vulnerable points like parapets and the edges of roofs. Proper inspection helps in avoiding water damage, structural deterioration, and costly repairs. This checklist includes detailed steps and criteria to validate waterproofing effectiveness and is designed for interactive use. You can tick off items, add comments, and export the completed report as PDF or Excel with a unique QR code for authenticity and traceability.	1. Prepare the necessary tools such as moisture meters, inspection mirrors, and safety gear like harnesses and helmets. 2. Click the "Use this checklist" button to start the interactive mode. 3. Tick each item online as you complete it. 4. Add comments on individual items or the entire checklist. 5. Click Share or Download to download your completed checklist as PDF or Excel.
